NOTE OF WARNING.

To the Public:

As a matter of justice to ourselves and to

the reputation of Dr. Leslie E. Keeley's Double Chloride

of Gold Remedies for the cure of the Liquor,

Opium, Morphine and Tobacco Habits, and

Neurasthenia, we warn the public that these

remedies are used by no institution or practitioner

in the United States who are not duly licensed

under the name of "The Keeley Institute."

All others claiming to use our remedies are

frauds and impostors. We have now secured

various parts of the United States, where the

"Keeley Treatment" is administered, and the Keeley

remedies sold. We, however, caution all to ex-

amine well and know that they are dealing with

GENUINE REPRESENTATIVES, authorized by us, be-

fore taking treatment or purchasing remedies. The

name of "Keeley" or "Keeley's" is the name of

"Keeley's Double Chloride of Gold" or similar titles. The

newspapers often fail to discriminate sufficiently

to inform the public of the true nature of the

frauds and impostors. We, therefore, warn the

THE MAYOR ON TOP.

Chief Barron Gets His Salary and Mayor

Hemstead Will Sign the Contracts.

The City Council held a meeting last

Saturday evening to consider the

paving matter, the mayor having re-

solved to sign the contracts for the

improvement at the electric light

works unless Chief Barron was re-

tained at a salary of \$75 per month.

Things began to assume an azure

hue, and it was decided to hold a

special meeting on Thursday evening.

The meeting was called to order

with a full board present excepting

Alderman Paine who had been de-

tained in St. Paul. The matter of an

ordinance covering riding galleries

was discussed and one was finally

passed fixing the license at \$10 a

week. At this juncture President

Williamson stated to the council that

unless matters were fixed up he would

be compelled to resign as he could

not afford to spend his time coming

to special meetings and accomplish-

ing nothing. A reporter inferred, of

course, that the president was allud-

ing to the trouble over the police

matter and an inquiry sustained the

suspicion. It was suggested that the

mayor be sent for and he made his

appearance with Chief Barron. The

council then went into executive ses-

sion and what was done is only a sur-

mise as far as the public is concerned.

When the council unlocked the doors

a motion was made to pay the chief

of police \$75 per month which was

carried. Alderman Fogelstrom, John-

son and Anderson voting no, while

Aldermen Ferris, Snoborn, William-

son, Lowe, Parker and McMurtry

voted yes.

It is hoped that this will settle the

trouble which has existed and that

the mayor and the City Council will

work in harmony from this time on.

Tax the cur dogs or kill them.

Change of Meeting at the Y. M. C. A.

The devotional committee of the Y.

M. C. A., of this city, have de-cided

it advisable to close their Sunday af-

ternoon meeting at their rooms, and to

"open air" services at Rice lake, near

the terminal of the car line. This has

been determined because they think

a greater number of persons can be

reached than at their rooms. For

these meetings the services of Rev

Augusta Soares, a member of the open

air mission, of London, England, has

been secured, and as he is noted for

his work among the missions of Lon-

don there is no doubt of his ability

for the work. Rev. W. A. Warren

and others have kindly consented to

assist in these meetings. The meet-

ings will be held on the lawn in front

of the hotel of Mr. Casey, who has

kindly loaned an organ for the oc-

casional. In case of bad weather the

meetings will be held in the car barn

which has been loaned by Mr. Parker.

The singing will be in charge of a

choir from the different churches.

MISSOURI is endeavoring to make

voting compulsory hereafter by im-

posing a fine of \$2.50 upon every one

who fails to vote.

HIS LAST RIDE.

Conductor Knight is Thrown Twenty

Feet in the Air and Killed.

A serious accident occurred on the

Brainerd & Northern Minnesota rail-

way on Tuesday night in which

Charles Knight, conductor of the

logging train, lost his life. It seems

that the train consisting of thirty

empty flat cars was being taken from

camp 8 to camp 4 and was being

backed in. The conductor, Mr. Stitt

said, "boys, I guess we'll all have to

jump," and as it was impossible to

stop the train everybody but the man

who made the proposition jumped.

When the car struck the cattle he

was endeavoring to stop a brake, and

the train buckled up he was thrown

fully twenty feet in the air still grasp-

ing his lighted lantern, for it was about

9:30 at night. The balance of the

crew were uninjured, but Mr. Knight

was killed almost instantly. He never

spoke after the accident. A train

brought him to this city as soon as

possible, but life was extinct before

assistance could be rendered.

The coroner viewed the remains on

Wednesday morning but an inquest

was deemed unnecessary and the re-

main was buried in Evergreen cem-

etery, every attention being shown by

the Northern Mill Company, through

its agent, Mr. Robert Stitt.

The deceased had no known rela-

tives in this country, his mother and

sisters living in Belgium. He was a

sober, industrious man, well-spoken of

by his employers, about 28 years of

age, and had accumulated about

\$1,500 in money which, up to the pre-

sent time his friends have been un-

willing to locate, although they are

certain that he had it somewhere.

He was very reticent about money

matters, and although he had told

about his savings, he had never dis-

closed where he kept it deposited, and

Ward McAllister is a mere social jackanapes, and it is ridiculous for brainy newspaper editors to give him the prominence in their great dailies they do. One hundred million tons of water pour over Niagara Falls every hour. This is said to represent 16,000,000 horse power. Some idea of this enormous amount of water may be gained by understanding that all the coal produced in the world would not make enough steam to pump a stream of equal size.

Weighting the Earth.

Weighing the earth is a problem which has often interested and amused scientists, and various efforts have been made to determine with some degree of accuracy the probable weight of the globe on which we live. In 1772 a series of curious experiments were made by Prof. Maskelyne at Mount Schiehallion, by which he determined the singular fact that the attraction exerted by the mountain mass on the plumb line caused it to deviate nearly six seconds from the perpendicular. Long and elaborate calculations followed, on the details of which it is not necessary to dwell, but the result was, taking the diameter of the earth as 7924.1 miles and the weight of a cubic foot of water as 62.32 pounds, the weight of the earth was calculated to be 5,342,000,000,000,000,000 tons of 2,240 pounds each.

Charging the Jury.

It sometimes happened during the era of "Reconstruction" in South Carolina that the quondam slave was summoned to serve as juror on a jury. It happened that Pompey Smash, a coal black negro, became a "Trial Justice."

It was not long before Pompey had a case before him. When the jury arose and began moving toward the examining room, Pompey gathered up himself, and with all possible dignity said:

"Gen'men of this jury, be dis is the first time I have had my de's in a case, I charge each one of you one dollar and a half."

Maidens Sold by Auction.

A singular custom obtains to this day in some of the towns of the Lower Rhine, namely, that of "selling" maidens at public auction. For nearly four centuries, on Easter Monday—autumn day—the town clerk of St. Goar has called all the young ladies together, and to the highest bidder sold the privilege of dancing with the chosen girl, and he put, during the century, the fees per girl into the public poor-box.

LOVE AND DUTY.

appointed him, and was ushered in. Inez, who rose to greet him. Was that man, thin face the face of the brilliant beauty he remembered. The face of the woman who had looked at him with that memorable night only two years before?

"I have altered," she said, in sweet, rich, tremulous tones. "He could not speak; he led her silently back to the sofa on which she had looked at him on that night."

"You think I have altered?" she said, in sweet, rich, tremulous tones. "He could not speak; he led her silently back to the sofa on which she had looked at him on that night."

"I am rather tired," observed Inez presently. "All this exercise does me no good."

"I beg your pardon," he answered apologetically. "You were right to remind me; here is a seat just ready for you. Why don't you sit?"

"You are very hard to get on with," she said laughingly, as they sat down. "I don't think you have made a single remark, and that you have only said 'Yes' and 'No' to all my brilliant sallies!"

"But indeed I can, Miss Munro," he answered, with a desperate effort to restrain himself. "I have been making such frantic endeavors to enliven you! Why did you come at all if you cannot talk and make yourself agreeable?"

"It is because he is so busy," she said, half apologetically, addressing herself to the man. "He has been shooting at the hills for a few days' shooting—and perhaps he is not back yet."

"He is not back yet," he said, in a bantering tone and speaking quickly. "I am sure you must be worried or ill or something; and I have been teasing you with my nonsense all this time. You look quite dreadful; what is it?"

"There is nothing the matter," he exclaimed hastily. "I am just rising and going to bed. 'Why should I hide it any longer? It cannot hurt you to hear it. I have been teasing you with my nonsense all this time. You look quite dreadful; what is it?'"

"I must go," she said, in a bantering tone and speaking quickly. "I am sure you must be worried or ill or something; and I have been teasing you with my nonsense all this time. You look quite dreadful; what is it?"

Finest in Minnesota.
A syndicate of gentlemen consist-
ing of Leon E. Lum, J. L. Smith and
others have bought the house and
grounds at Gull Lake which was oc-
cupied at one time by Lou Dodge but
which was opened last summer by W.
B. Chambers, as a summer resort.
The place will be fitted up in fine
shape by the addition of paint, porches
and screens and will be made one
of the most desirable in northern
Minnesota. The location is one which
cannot be excelled and it is peculiar
that the premises were not taken by
some one long ago. The finest fish-
ing in Minnesota is at Gull Lake and
the tributary waters and the day is
coming when it will be a smart rival
of Minnetonka. The railroad now
runs within three miles of it and a
steamer for pleasure parties is nearly
ready to be launched upon its
waters, by a party of Brainerd men
interested in building up and ad-
vertising the beauties and pleasures to
be seen and enjoyed in that vicinity.
The only disadvantage is the distance
from Brainerd, but as new roads have
been laid out avoiding the sand hills
this is partially overcome and we look
for many cottages to spring up in
that vicinity during the summer.

THE NATIONS DEAD.
 Brainerd Will Fittingly Observe Memorial Day.
 Tuesday next is Memorial day, a day set apart by the nation to be observed in honor of the heroes who gave their lives up for their country's sake. The exercises in Brainerd will be under direct charge of Pap Thomas Post, G. A. R., and they earnestly request that every old soldier, whether a member of the Grand Army or not, turn out and march with them and help make the exercises a success.
 At 9 a. m. on Tuesday morning the post, commanded by Capt. Martin, will form in front of headquarters on Sixth street and march to Evergreen cemetery; the horse will accompany the procession bearing the flowers for decoration purposes. Sergeant Houghton will have charge of the firing squad, and Post Chaplain Huntington will conduct the ritual services.
 In the afternoon at 2 o'clock members of the post will form on Third street in front of the hall, the Third Regiment Band preceding them, and march to the high school on Eighth street south, where the saluting of the flag will take place; the pupils of the city schools will then form in line and the procession will move up Eighth street to Front, thence west to Sixth and north to Gregory Square, under the direction of J. C. Congdon, marshal of the day. Here the exercises will take place, Rev. G. H. Davis being made by Rev. Fr. Lynch, Rev. J. A. Jenkins, Rev. E. G. Sanderson and H. C. Stivers. Music will be furnished by the Germania Maennerchor, the band and the school children.
 The annual memorial sermon will be delivered by J. C. Huntington at the Congregational Church on Sunday evening, May 28th. Pap Thomas Post expecting to attend in a body on that occasion.
 A Happy Event.
 The wedding of Geo. F. Watson of Duluth, to Miss Mauda Oliver, of this city, occurred on Wednesday at the residence of Mr. and Mrs. M. G. Holmes, the Rev. J. A. Jenkins officiating. The groom is a well known Northern Pacific engineer, and for many years a resident of this city, the bride being a highly accomplished young lady, the daughter of Mr. Holmes. Their future home will be in Duluth.
 Gun Club Shoot.
 A sweepstake and practice shoot will be given by the Brainerd Gun Club at the fair grounds on Tuesday next at 2:30 p. m. Any shooter not wishing to join in sweepstake shooting can enjoy privileges of practice shooting by paying for the targets he shoots at. All non-professional shooters are invited. Free attendance to the grounds will be given those who participate. Take the Sixth street electric car to the fair grounds.
 Joseph Bullis, a former Brainerd boy but who has been in the naval service during the past ten years, returned to Brainerd last night and will make this his future home.
 Mrs. G. W. Vanderslice and Miss George leave today for Winnipeg the latter having sufficiently recovered from a severe attack of typhoid fever, which lasted over a period of two months, to be taken to her home.
 The "boys" arrested Saturday evening last, or Sunday morning early, are not liable to be severely dealt with, as the law says a warrant is necessary on Sunday or in the night time unless a crime or offense is committed in the presence of the officers. Judge Fleming appears for the defense, the trial being set for tomorrow.
 The water in Gull lake is higher now than it has ever been known to be before and serious damage has been done to the bridges in the vicinity of Bishop's place. The bridges at Mud lake which is a structure about 400 feet long and at a low or ordinary stage of water is from four to five feet in the clear has been nearly submerged and the turnpike at the north end of it has been entirely washed away making it impassable. This bridge was repaired and put in good shape by the county a short time ago but it is in worse shape than ever now and needs immediate attention.
 Speaking of the entertainment which will appear at the Sleeper opera house tomorrow night the National Hotel Reports says:
 Mr. Pete Baker, the well-known German dialect comedian, began a weeks engagement at the Haymarket last night, presenting his old-time comedy success, "Chris and Lena." This favorite play has met with a most enviable success, but since last seen in Chicago has undergone many changes for the better, while the company carried Mr. Baker this season is by far the best he has ever had. Prominent among the supporting company this season is Miss Martha George, the well known German soubrette. She has a splendid, clear soprano voice and will appear in the comedy in the role of Lena. Pete Baker is as popular as ever. His new songs have made a big hit, and his dance combined with his original wit and humor which he intersperses throughout the piece have strengthened his popularity.

Finest in Minnesota.
 A syndicate of gentlemen consisting of Leon E. Lum, J. L. Smith and others have bought the house and grounds at Gull Lake which was occupied at one time by Lou Dodge but which was opened last summer by W. B. Chambers, as a summer resort. The place will be fitted up in fine shape by the addition of paint, porches and screens and will be made one of the most desirable in northern Minnesota. The location is one which cannot be excelled and it is peculiar that the premises were not taken by some one long ago. The finest fishing in Minnesota is at Gull Lake and the tributary waters and the day is coming when it will be a smart rival of Minnetonka. The railroad now runs within three miles of it and a steamboat for pleasure parties is nearly ready to be launched upon its waters, by a party of Brainerd men interested in building up and advertising the beauties and pleasures to be seen and enjoyed in that vicinity. The only disadvantage is the distance from Brainerd, but as new roads have been laid out avoiding the sand hills this is partially overcome and we look for many cottages to spring up in that vicinity during the summer.
 Cheaper Than Shoe Leather.
 Fred S. Parker informs a DISPATCH reporter that tickets will be on sale next week good on the electric street car line which will enable the workmen to ride to and from their work. These tickets will be good between the hours of 6 and 7 in the morning and 6 and 7 in the evening, and will sell for 50 cents and one dollar, the former being good for fifteen rides and the latter thirty. Tickets will be punched as presented and will not be transferable. This will reduce the fare to three and one-third cents a trip.
 There is war in the camp and no mistake, as warrants have been sworn out against J. H. Kellehan, Chas. Peterson, Robt. Sissler and O. H. Nelson for selling whiskey on Sunday. The warrants were obtained by men named Swanson, Eckberg, Anderson and Olson. Trial will begin on Saturday.
 The Transcript says: Brainerd is anxious and she sent another challenge yesterday to W. H. Workman daring Little Falls to play base ball with her. It is understood that the boys are getting a good ready and will soon satisfy the city of the Crow Wing.

They will go to St. Paul at some future time.

 The drives of the upper Mississippi says the Lumberman, not withstanding the fact that the season is far behind that of last year, are in a most promising condition, and the indication is that the best of results will be obtained. The continued height of the water and the swiftness of the current will in a measure make up for the backwardness of the spring. The reports that come from up the river, while they are few and scattered are nevertheless of the most encouraging character, and seem to stimulate the general feeling of depression among the lumbermen.

THE MAYOR ON TOP.

Chief Barron Gets His Salary and Mayor

Strenuously Will Sign the Contracts.

The City Council held a meeting last Saturday evening to consider the

paying matter, the mayor having

returned the resolution without his

signature and the electric light com-

mittee reported that Mayor Homstead

had refused to sign the contracts for

the improvement of the electric light

works unless Chief Barron was re-

trained at a salary of \$75 per month.

Things began to assume an azure

hue, and it was decided to hold a

special meeting on Thursday evening.

The meeting was called to order

with a full board present excepting

Alderman Paine who had been de-

termined in St. Paul. The matter of an

ordinance covering riding galleries

was discussed and one was finally

passed fixing the license at \$10 a

week. At this juncture President

Williamson stated to the council that

unless matters were fixed up he would

be compelled to resign as he could

not afford to spend his time coming

to special meetings and accomplishing

nothing. A reporter informed, of

course, that the president was allud-

ing to the trouble over the police

matter and an inquiry sustained the

suspicion. It was suggested that the

mayor be sent for and he made his

appearance with Chief Barron. The

council then went into executive ses-

sion and what was done is only a sur-

mise as far as the public is concerned

When the council unlocked the doors

a motion was made to pay the chief

of police \$75 per month which was

change of Meeting at the Y. M. C. A.

The devotional committee of the Y.

M. C. A. of this city, have deemed it

advisable to close their Sunday after-

noon meeting at their rooms, and hold

"open air" services at Rice lake, near

the terminal of the car line. This has

been determined because they think

a greater number of persons can be

reached than at their rooms. For

these meetings the services of Rev

Augusta Soares, a member of the open

air mission, of London, England, has

been secured, and as he is noted for

his work among the missions of Lon-

don there is no doubt of his ability

for the work. Rev. W. A. Warren

and others have kindly consented to

assist in these meetings. The meet-

ings will be held on the lawn in front

of the hotel of Mr. Casey, who has

kindly loaned an organ for the oc-

casional use. In case of bad weather

the singing will be in charge of a

choir from the different churches.

Missouri is endeavoring to make

voting compulsory hereafter by im-

posing a fine of \$2.50 upon every one

HIS LAST HIDE.

Conductor Knight is Thrown Twenty

Feet in the Air and Killed.

A serious accident occurred on the

Brainerd & Northern Minnesota rail-

way on Tuesday night in which

Charles Knight, conductor of the

logging train, lost his life. It seems

that the train consisting of thirty

empty flat cars was being taken from

camp 8 to camp 4 and was being

backed in. The conductor, Mr. Stitt

and two other train hands were in

the forward car, and as a drove of

cattle were sighted, Conductor Knight

said, "boys, I guess we'll all have to

jump," and as it was impossible to

stop the train everybody but the man

who made the proposition jumped.

When the car struck the cattle he

was endeavoring to set a brake, and as

the train buckled up he was thrown

fully twenty feet in the air still grasp-

ing his lighted lantern, for it was

about 9:30 at night. The balance of

the crew were uninjured, but Mr. Knight

was killed almost instantly. He never

spoke after the accident. A train

brought him to this city as soon as

possible, but life was extinct before

assistance could be rendered.

The coroner viewed the remains on

Wednesday morning but an inquest

was deemed unnecessary and the re-

mained were buried in a pauper's

cemetery, every attention being shown

by the Northern Mill Company, through

its agent, Mr. Robert Stitt.

The deceased had no known rela-

tives in this country, his mother and

sisters living in Belgium. He was a

sober, industrious man, well spoken of

by his employers, about 28 years of

age, and had accumulated about

\$1,500 in money which, up to the pre-

sent time his friends have been un-

able to locate, although they are

certain that he had it somewhere.

He was very reticent about money

matters, and although he had told

about his savings, he had never dis-

closed where he kept it deposited,

and nothing has yet been found to

indicate where it is. He had worked

for the Northern Mill Company about

Mrs. G. W. Vandercie and Miss Georgie leave today for Winnipeg; the latter having sufficiently recovered from a severe attack of typhoid fever, which lasted over a period of two months, to be taken to her home.

The "boys" arrested Saturday evening last, or Sunday morning early, are not liable to be severely dealt with, as the law says a warrant is necessary on Sunday or in the night time unless a crime or offense is committed in the presence of the officers. Judge Fleming appears for the defense, the trial being set for tomorrow.

The water in Gull lake is higher now than it has ever been known to be before and serious damage has been done to the bridges in the vicinity of Bishop's place. The bridges at Mud lake which is a structure about 400 feet long and at a low or ordinary stage of water is from four to five feet in the clear has been nearly submerged and the turnpike at the north end of it has been entirely washed away making it impassable. This bridge was repaired and put in good shape by the county a short time ago but it is in worse shape than ever now and needs immediate attention.

Speaking of the entertainment which will appear at the Sleeper opera house tomorrow night the National Hotel Reports says:

Mr. Pete Baker, the well-known German dialect comedian, began a weeks engagement at the Haymarket last night, presenting his old-time comedy success, "Chris and Lena." This favorite play has met with a most enviable success, but since last seen in Chicago has undergone many changes for the better, while the company carried Mr. Baker this season is by far the best he has ever had. Prominent among the supporting company this season is Miss Marthe George, the well known German soprano voice and will appear in the comedy in the role of Lena; Pete Baker is as popular as ever. His new songs have made a big hit, and his dance combined with his original wit and humor which he intersperses throughout the piece have strengthened his popularity.

Finest in Minnesota.

A syndicate of gentlemen consisting of Leon E. Lum, J. L. Smith and others have bought the houses and grounds at Gull Lake which was occupied at one time by Lon Dodge but which was opened last summer by W. B. Chambers, as a summer resort. The place will be fitted up in the shape by the addition of paint, porches and screens and will be made one of the most desirable in northern Minnesota. The location is one which cannot be excelled and it is peculiar that the premises were not taken by some one long ago. The finest fishing in Minnesota is at Gull Lake and the tributary waters and the day is coming when it will be a smart rival of Minnetonka. The railroad now runs within three miles of it and a steamboat for pleasure parties is nearly ready to be launched upon its waters, by a party of Brainerd men interested in building up and advertising the beauties and pleasures to be seen and enjoyed in that vicinity. The only disadvantage is the distance from Brainerd, but as new roads have been laid out avoiding the sand hills this is partially overcome and we look for many cottages to spring up in that vicinity during the summer.

Cheaper Than Shoe Leather.

Fred S. Parker informs a Dispatch reporter that tickets will be on sale next week good on the electric street car line which will enable the workmen to ride to and from their work. These tickets will be good between the hours of 6 and 7 in the morning and 6 and 7 in the evening, and will sell for 50 cents and one dollar, the former being good for fifteen rides and the latter thirty. Tickets will be punched as presented and will not be transferable. This will reduce the fare to three and one-third cents a trip.

There is war in the camp and no mistake, as warrants have been sworn out against J. H. Kellehan, Chas. Peterson, Robt. Sissler and O. H. Nelson for selling whiskey on Sunday. The warrants were obtained by men named Swanson, Eckberg, Anderson and Olson. Trial will begin on Saturday.

The Transcript says: Brainerd is anxious and she sent another challenge yesterday to W. H. Workman daring Little Falls to play base ball with her. It is understood that the boys are getting a good ready and will soon satisfy the city of the Crow Wing.

They will go to St. Paul at some future time.

The proprietors of the Kewanee Steam Riding Gallery have arranged to give the proceeds of the riding gallery on the p. m. and eve of Tuesday, May 30th, to the Woman's Christian Temperance Union. Tickets can be obtained on or before the afternoon of the "Benefit" of the proprietors and of the ladies of the W. C. T. U.

the lumberman, not withstanding the fact that the season is far behind that of last year, are in a most promising condition, and the indication are that the best of results will be obtained. The continued height of the water and the swiftness of the current will in a measure make up for the backwardness of the spring. The reports that come from up the river, while they are few and scattered are nevertheless of the most encouraging character, and seem to stimulate the general feeling of depression among the lumbermen.

The above words speak volumes and cannot be said of many things, but coming from one who has been a sufferer for many years no further tribute can be added.
